Our Fresh Turkeys

Jayde's Market proudly serves Mary's Turkeys.
No preservatives, no added salt and no additives of any kind.

Preparing your Turkey for Roasting

- On roasting day, keep the turkey in its bag and submerge it in cold running water until it feels soft.
- Just prior to roasting, remove the turkey from the bag and rinse it thoroughly with cold water—inside and out.
- Careful rinsing will bring the inside of the turkey to the proper temperature, for even roasting.
